SUNDAY WORLD FEATURES

To-morrow marks the opening of the summer resort season. Where are you going this Summer-to the seashore, to the mountains or to some quiet sput in the country? All Winter long new cottages and new hotels have been making their appearance with more or less energy here and there, and in the last few weeks things have been rushed forward to have everything ready for the first many under new and clean and honest hot wave. The weather bureau declares leaders can again claim her proud title that at last the weather has settled down for a good hot Summer, and next week the vanguard of Summer visitors will begin to arrive at the various watering places. Near New York the regular Summer residents have already opened their cottages, and at the nearby resorts like Bath Beach, Far Rockaway and long the Jersey shore the hotels are already well filled with visitors. Bar Harber has not yet sprung into active life, and, of course, the mountain resorts are still slumbering in their Win-

ter lethargy. The "Sunday World" to-morrow will devote three pages to laying before its would these Yankee shells be out at readers nearly everything that they would like to know about what has been going on all Winter at the various waering places. It will tell you all about the new hotels, who have built new cottages and what general improvements have been made here and there. If you are going to return this Summer to the find a story telling all that is new, and giving you a very clear view of the cutlook for the season. Besides this, the 'Sunday World" will print a very strik-'94, showing her in her various spedalties, fads, fancies and frolics at the big Eastern resorts.

Miss Meg Merrilles, that enterprising and very courageous young woman who has already acquainted the readers of the "Sunday World" with visions of life in New York and her varied and unusual Aperiences, will to-morrow tell of what she saw and did during a stroll along the bottom of the Bay. This young woman, with four pairs of underflannels to keep her from being chilled, attired herself in diving suit and explored the mysteries of life under water in our harber. Anybody who has read Jules Verne's remarkable story, "Twenty Thousand Leagues Under the Sea," will have some curlosity to know what Miss Meg Mer-"Twenty Thousand rilles has to say about her experiences among the fishes and crabs and cels down

the Bay.

The "Sunday World" to-morrow will present a most timely and interesting story, forecasting the chances of the great American yacht Vigilant, which has just arrived in British waters, with her shirt sleeves rolled up, and ready to show the crack English racers that she can beat them all. This is the yacht which last year held the championship and defeated Valkyrie, and now, There was a slight going down in sugar under the command of George Gould, sterday when 2,000 bags sank in the has stepped into British waters to show her stern to the famous Britannia, the Prince of Wales's celebrated yacht. The "Sunday World" will tell exactly what races Vigilant will try to win and will give the opinions of the leading British vachtsmen on her chance o bringing back to America all the cups

she can lay her hands on. Among other features of the "Sunday World" to-morrow will be a most charming fiction story by Margaret Deand; a very curious article, with some most extraordinary pictures, of animals of past ages, those enormous beasts that walked the earth before the days f Adam; an interesting illustrated study of the students of the leading American colleges for women and the girl graduates of 1894; an article of special interes of baseball, which occurred just forty eight years ago next Tuesday, when the first match game of ball was played t this country. To-morrow's "Sunday World" will be a most notable paper covering every realm of human interest Don't miss to-morrow's "Sunday World.

"Johnnie Bull" Writes Again.

To the Editor: have stirred up a hornet's nest. I wrote you a few truths some time ago, perhaps in a chaffing way, and apparently Americans ion't relish truths from a foreigner. Perhaps I have been here longer than aix weeks and understand America correspondents who enjoy berating and vilifying "Johnnie Hull" are defending the ideal, not the actual America. I would say to my flery young friend, "Carson, of Yonkers," to take cold baths in the mornings, avoid highly seasoned meats and read Emerson. Wants Work, Not Suffrage.

To the Editor: I would humbly ask the public at large where could be the advantage to the majority of workingwomen should they gain the full right of suffrage? I am a workingwoman, but heaven nows I do not want the ballot. If those san nfluential men and women who believe they are enefiting the workingwoman by striving to give her the privilege of voting would but give her employment, then they would be truly beneficial their sisters. God did not give woman the right to vote, but, oh, surely he gave her th right to live; but how can life exten stenance? Cauliflower au gratin is a favorite ish with all who are fond of this vege table, which, if it can be said to hav a fault, is that of insipidity. By the way, if you call it delicacy of flavor it will taste a great deal better. Boil the cauliofiwer, drain, lay in a dish and pour over it a cup of drawn butter well seasoned: sprinkle with four spoonfuls of grated cheese, and brown by holding a red-hot shovel so close to the cheese that it singes and taxes fire Blow out at once and send to table tract 51 from 1,296, and there remains 1,215. Put it in the and yet a child with all the vivacity of youth. She captivates with her beauty, but in mind and soul there is something wanting which physical perfection doe not satisfy, and the charm is soon gone, for at twenty-five, when the American girl is just at her best, the Argentine girl is passee, growing corpulent and coarse very rapidly as she approaches middle age. Her habits are indolent, and she is addicted to the use of rouge and powder to such an extent that her original complexion is entirely concealed.

Fashionable Parasols. The fashionable parasol has a slender
